County Council

Constituent Update

IMPROVING GOVERNMENT ACCOUNTABILITY

In April, County Council approved my motion to broadcast meetings of County Council and its committees on cable TV and over the Internet. I championed this policy to make county government more accessible to everyone and improve the transparency of our decision-making process.

MAKING OUR COUNTY'S STREETS SAFER

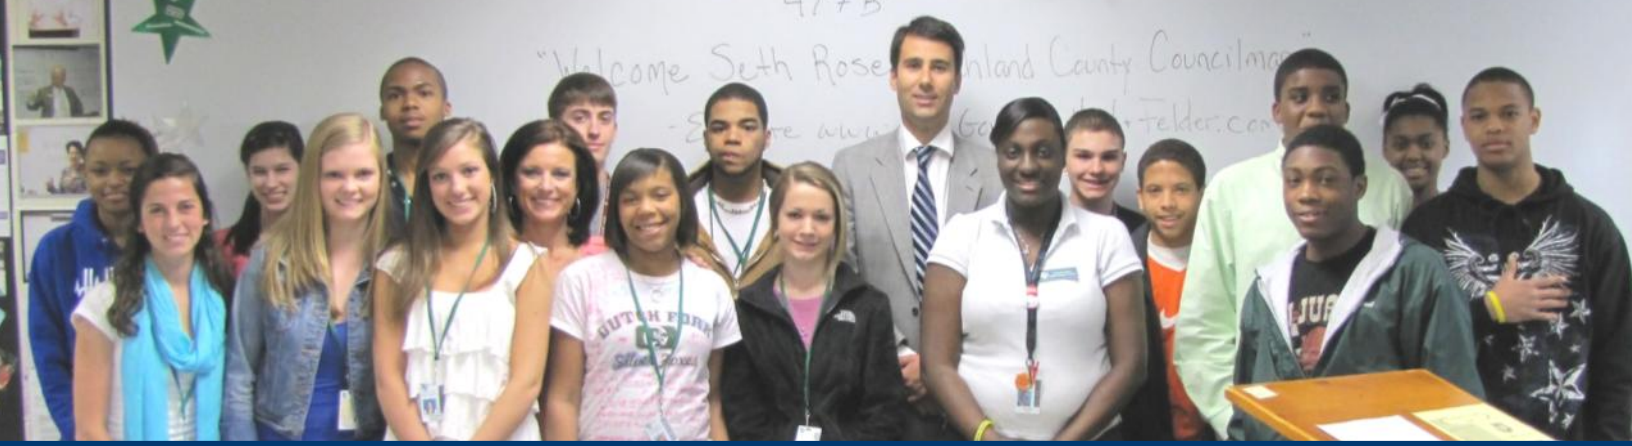

I have put forth an ordinance to ban the practice of texting while driving throughout all of Richland County. This law will help improve the public safety of our roads and the regional consistency of similar laws passed at the municipal level.

KEEPING HEALTH DEPARTMENT ACCESSIBLE

Earlier in the year, I successfully fought against a plan to move Richland County's Health Department to Decker Mall. Approval of this move would have had dire consequences and made the facility inaccessible to many residents of our district.

REMOVING OBSTACLES TO START A BUSINESS

I have initiated a proposal for Richland County to develop a "one-stop" shop that makes it easier for businesses to get necessary licenses and permits. In this tough economy, we cannot afford to let opportunities to keep slipping away and go across the river to Lexington County.

It's an honor to be your voice on County Council. On the reverse side of this card, I have provided an update of some items I've been working on during my first four months representing you.

If I can be of assistance to you, please don't hesitate to call me on my cell phone at 361.2360 or my law office line at 779.0100.
